## DEFINITIONS AND METHODOLOGICAL ISSUES

### Definitions:

*Local Jewish Federation* refers to the Jewish Federation in each comparison community.

*Other Jewish Federations* refers to Jewish Federations other than the Local Jewish Federation.

*Other Jewish Charities* refers to Jewish charities other than the Local Jewish Federation and Other Jewish Federations. Donations to Other Jewish Charities *exclude* membership dues to synagogues, Jewish Community Centers, and Jewish organizations, tuition for Jewish education programs, and Israel Bond purchases.

*Non-Jewish Charities* refers to charities that are not specifically Jewish.

*Any Jewish Federation* (sometimes referred to as *Jewish Federations*) includes the Local Jewish Federation and Other Jewish Federations.

*Any Jewish Charity* (sometimes referred to as *Jewish Charities*) includes Any Jewish Federation and Other Jewish Charities.

*Any Charity* includes Any Jewish Charity and Non-Jewish Charities.

### Methodological Issues:

First, when examining comparisons of the percentages of households who donated to charities in the past year by the level of donations, the reader is cautioned to consult the tables for the year in which each community completed its study. These comparisons do not account for geographic variations in cost of living or for inflation.

Second, the percentages of households who donated to charities in the past year may differ slightly from one table to another. These differences are due to missing data, which are treated differently in different studies.

Third, in some communities households who “don’t know” whether they donated to charities in the past year were assumed *not* to have donated. Households who “don’t know” whether they were asked to donate to the Jewish Federation in the past year were assumed *not* to have been asked to donate.

\* Excludes households who donated to charities specifically established for September 11 and Hurricane Katrina victims.

<sup>1</sup> Includes donations to the Local Jewish Federation and Other Jewish Federations. In some communities, no question was asked about donations to Other Jewish Federations. If the question had been asked, the percentage of households who donated to *Any Jewish Federation* in the past year would likely be higher.

<sup>2</sup> Martin-St. Lucie has no Local Jewish Federation and is served by the Jewish Federation of Palm Beach County.

<sup>3</sup> NJPS 2000 data are for the *more Jewishly-connected sample*.

<sup>1</sup> In some communities, no question was asked about donations to *Other Jewish Federations*. If the question had been asked, the percentage of households who donated to *Other Jewish Federations* and *Any Jewish Federation* in the past year would likely be higher.

<sup>2</sup> Martin-St. Lucie has no Local Jewish Federation and is served by the Jewish Federation of Palm Beach County.

<sup>3</sup> NJPS 2000 data are for the *more Jewishly-connected sample*.

		Jewish Charities					
Community	Year	Local Jewish Federation ⑤	Other Jewish Federations <sup>1</sup> ②	Other Jewish Charities ③	Non-Jewish Charities ④	Jewish Charities' Share of All Charitable Dollars	Local Jewish Federation's Share of Jewish Charitable Dollars

<sup>1</sup> In some communities, no question was asked about amounts donated to *Other Jewish Federations* and zeros have been entered in the table. If the question had been asked, there would likely be a very small percentage of charitable dollars donated to *Other Jewish Federations* in the past year.

<sup>2</sup> Martin-St. Lucie has no Local Jewish Federation and is served by the Jewish Federation of Palm Beach County.

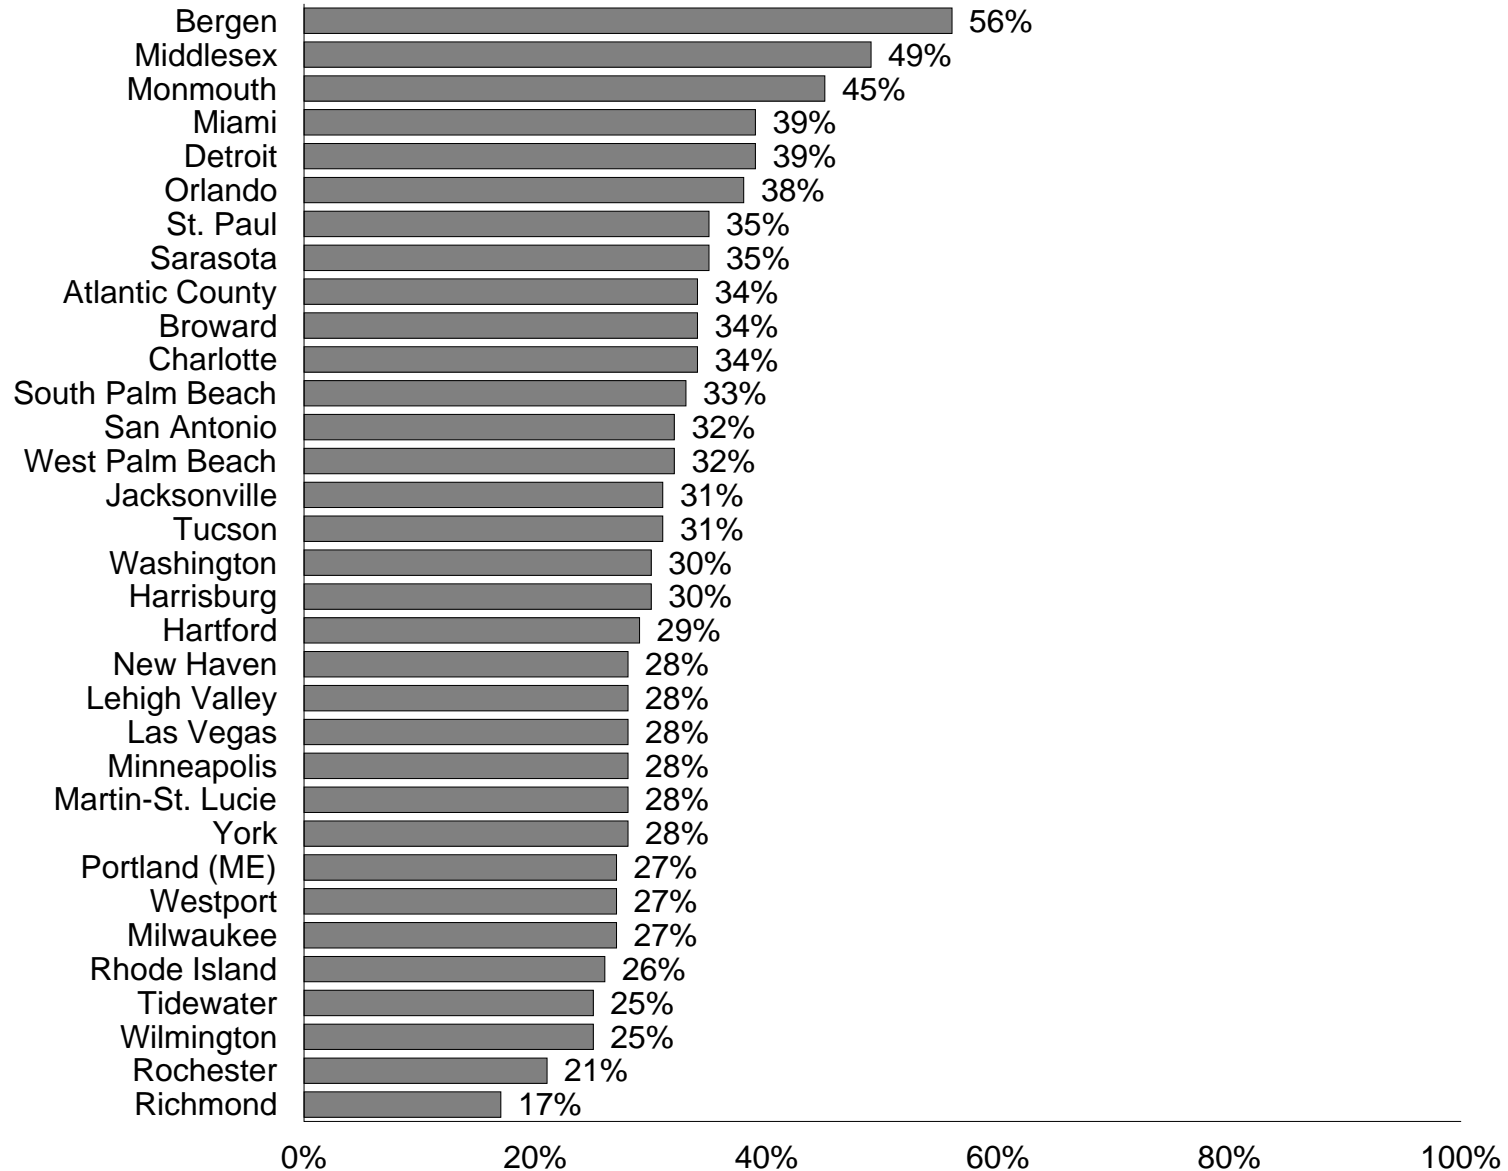

<sup>3</sup> NJPS 2000 data are for the *more Jewishly-connected sample*.

Note: The percentages in the table should be viewed as rough approximations, since respondents were not asked to report the exact amounts their households donated, but rather were asked to report their donations in various amount categories (e.g., \$100-\$500). When calculating the amounts donated in each category of donations (Local Jewish Federation, Other Jewish Federations, Other Jewish Charities, and Non-Jewish Charities), the amount used was the midpoint of the range in each amount category. For example, all households who donated under \$100 were assumed to have donated \$50. All households who donated \$25,000 and over were assumed (conservatively) to have donated \$25,000. These amounts were multiplied by the number of households who donated each amount to derive the total amount donated in each category of donations. These total amounts were then converted to percentages.

## OTHER JEWISH FEDERATIONS' AND OTHER JEWISH CHARITIES' SHARE OF CHARITABLE DOLLARS IN THE PAST YEAR

In some communities, the question about amounts donated to Other Jewish Federations was not asked because it was deemed immaterial. Zeros have been entered in the graph; however, if the question had been asked, there likely would be a very small percentage of charitable dollars donated to Jewish Federations in other communities.

St. Petersburg did not ask about Other Jewish Federations and Other Jewish Charities separately
